■ Forest	1,557,947	848,992	806,404	259,266	74,516
■ Cultivated	0	954	276	0	4,111

Chart 21: Percent Area of Land Use. This data was collected from Landsat Satellite Imagery, and classified by the Manitoba Remote Sensing Center. This data was compiled using the GIS software ArcView with ECS data obtained from the DNR. The table below shows acreage. Refer to the 'Land Use' maps in the Land Use section of the NE Regional Landscape Atlas.
